# **JSMERGE: PROGRAMMABLE ODF DOCUMENT GENERATOR**

**CIB SOFTWARE GMBH  
DEN HAAG, 15.9.2015**

# LARGE-SCALE DOCUMENT GENERATION USING JAVASCRIPT-PROGRAMMABLE FIELDS

- > Enterprise-ready document merging from templates
  - > Programmable field engine, using JavaScript via V8
  - > Dynamic document generation
    - Enriched and controlled by external data sources
    - Arbitrary complexity in the generation logic due to generic programmability
    - Able to synthesize higher-level ODF markup, like dynamic tables, for full flexibility in document generation
  - > Outputs ODT and DOCX alternatively
-

# 25 YEARS OF DOCUMENT PROCESSING EXPERIENCE
